

國立臺北護理健康大學

National Taipei University of Nursing and Health Sciences

2024

Traditional Chinese Medicine Program

Session 1 / Session 2

Jul 8~20 / Aug 12~24

Introduction

National Taipei University of Nursing and Health Sciences (NTUNHS) is Taiwan's first institute of higher learning for nursing and health related studies. Our university is not only a pioneer in the domain of nursing and health care but also the sole institution offering a doctoral nursing program among the vocational education system in Taiwan.

Before the COVID-19 pandemic, NTUNHS opens ***Traditional Chinese Medicine Program every summer*** for international students from global partners with interest to Taiwan culture. This program provides a special opportunity for students to focus on learning traditional Chinese Medicine and complementary therapies through lectures, hands-on practices and hospital visits. Moreover, besides TCM classes, participants of the program could also experience different cultures and the beauty of Taipei.

Course Dates

Session 1 / Session 2
Jul 8~20 / Aug 12~24

Highlights of Recent Exchanges

Last summer we had academic and cultural exchanges with two Korean universities and a Japanese university.

Students from the three countries spent a wonderful two weeks together, learning Taiwan's traditional medical techniques, visiting Taiwan's famous attractions, share each other's national characteristics and become friends with each other more deeply.

This summer vacation! We sincerely invite you to come to NTUNHS to exchange knowledge and culture with us!

Make your memorable experience this summer at **NTUNHS TCM Program** where you have full of passion and love.

We sincerely welcome you to join our amazing journey and look forward to meeting you in Taiwan soon. 🍷

If you have any questions regarding this program, please contact **Michael Lin**
